

FRIENDSHIP

Friendship is ... opening the doors of your heart and sharing your life and your time with someone who is lonely.—

Friendship is ... always having time to listen, when someone needs to talk.—

Friendship is ... taking time to get interested in someone else who needs a caring heart.—

Friendship is ... keeping faith in another, when others lose faith and break a friendship.—

Friendship is ... letting love do its beautiful work, between two persons, in all the ways love can work.—

Friendship is ... walking with someone, in their lonely hours, dispelling the loneliness with love and care.—

Friendship is ... sharing your thoughts and your dreams with someone who has become a vital person to you.—

Friendship is ... suffering when your friend suffers, hurting when they hurt, and standing with them in the trying, hard moments of their life.—
